US 24 between Kingston Mines and Banner

PEORIA – The Illinois Department of Transportation announces that US 24 will be reduced to one lane between Kingston Mines and the IL 9 intersection in Banner, from Monday, Aug. 1 until late November.

The lane closure is necessary for patching, milling, resurfacing, striping, guardrail, and culvert work to be completed.

The culvert work will take approximately three weeks to complete and will require an overnight lane closure. Traffic will be controlled by temporary signals during that time. The remaining work is scheduled to be completed during daytime hours; no overnight closures are anticipated during that portion of the project.

Please slow down and use extreme caution while driving through all work zones.
